Project-Management / Project-Leader Aerospace

Are you interested in developing high-end electronic systems for the aerospace industry? We at DSI develop hardware and software solutions and computer technologies as well as innovative communication systems for space applications.

DSI hardware and software are flying as part of prominent space programs such as ExoMars (Mars mission) Copernicus (meteorological satellite) and JUICE (Jupiter mission). Since 1997, our steadily growing team has been producing highly innovative, customer-specific and dependable solutions.

For the upcoming projects we are looking for you to strengthen our team at DSI Aerospace Technologie GmbH!

What are your responsibilities?

- You are responsible for planning and managing the project activities (on-time, on-quality, on-cost)
- You will lead a multinational team of engineers working on international projects
- You and your team are in charge of the project during the entire project life-cycle from the initial sales support to the final delivery to the customer
- You will be the main focal point for the customer and sub-contractors as well as suppliers
- Together with our system engineers, you are responsible for the technical management of the project team

What do we expect from you?

- Degree in Computer Science, Computer Engineering, Electronics or a comparable field
- Professional experience in the aerospace sector
- Experience in project management as well as working in teams
- Ability to be proactive, to work towards tight deadlines and to prioritize workload accordingly
- Systematic working capabilities and competence in organization of your project- team
- Excellent communication and analytical skills
- High level of written English and at least basic fluency in spoken English
- Ideally basic written and verbal ability in German

What are we offering?

- Challenging and varied tasks encompassing all aspects of managing space projects
- Possibility to grow within and with the company
- Friendly and informal team atmosphere with a flat organisational hierarchy in an international team
- Possibility of flexible and family-friendly working hours
- Central location with good transport connections
- Competitive salary and up to +100% company contribution to corporate pension insurance
- Company-financed fitness club membership
